

ANTI-VIBRATION

>>> SM-Series

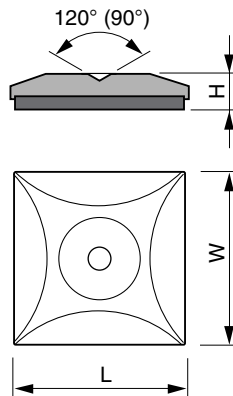

The Sunnex SM-Series offers economic vibration damping designed for installation of light to medium-duty machinery, particularly in the rubber production industry.

The SM leveling elements are comprised of an SP-Series machine pad and a load distribution plate made of a high grade cast iron. For leveling purposes you can choose from a range of leveling bolts based on specific requirements.

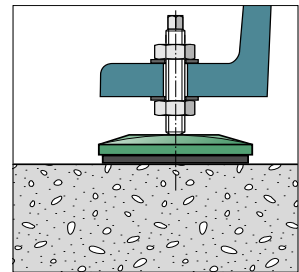

ADVANTAGES	APPLICATIONS
>> Pressure plate made from special grade cast iron	>> ENGINEERING MACHINERY
>> Integrated nitrile rubber damping pad that withstand most types of grease, acid, oil and cooling emulsion	>> GRAPHIC EQUIPMENT
>> Withstands loads up to 3400 kg	>> LATHES
	>> MACHINE TOOLS
	>> SMALL TO MID-SIZED INJECTION MOLDING MACHINES
